

Legacy Minute Weekly Message

Pillar 5: Priorities

Just a Thought: We live in the busiest and most stressful time in the history of the world! We have never had so many things pulling at us and interrupting us than now. The danger of this is that all of these things eat away at our time and pull us away from our priorities. The key to living out our purpose is to establish what our priorities are and then live our life in a way that focuses on achieving them.

Scripture: Put your outdoor work in order and get your fields ready; after that, build your house. - Proverbs 24:27

Discussion:

1. What are the three most important things in your life?
2. Are you living your life based on a set of priorities or just handling issue after issue as they come up?
3. Do you right down your priorities regularly and life goals annually?
4. Do you regularly schedule significant times to achieve your priorities?
5. What are some things you can minimize or eliminate to give you more time, energy and resources to focus on your priorities?
6. Have you had significant and ongoing discussions with spouse and/or family about establishing and living out priorities?

Legacy Lifter: Writing down your priorities and then scheduling your time to achieve those priorities is a power tool! It is also a powerful legacy builder to help you live out your life purpose. You can also help others to establish this powerful habit. Maybe you can identify a young man in your life that you can help write out their priorities and help them plan their lives to achieve them step-by-step.
